

Make Your Voice Heard During the Crisis

Congress will be developing a 4th Stimulus Package during late May. Make sure that your representatives are including provisions that support your students and your schools. Here is a letter signed by some California Schools and organizations to do just that.

If you don't know who your Representatives are, it's time. You can look them up by the zip code of your school here - <https://www.house.gov/representatives/find-your-representative>

The letter here requests 4 provisions relevant to at-risk students.

- Providing Title I funds to schools serving reengaged students over 17;
- Providing Unemployment Benefits to youth whose federal job training program has been suspended;
- Providing additional funding for federal WIOA based programs to serve more youth during the recession;
- Providing Crisis funding for nonprofits who serve at-risk students with wrap around services.
